With Orders Ahead for a Clear Track and with the Engineer Told to Go a Mile a Minute, Mckinley Journeys South.

By the United Press.

Cincinnati, Oct. 19. With orders ahead for a clear track and imperative instructions to the engineer that the minimum speed must not fall below sixty miles an hour, the special train conveying Governor Mc-Kinley to the Crescent City left here over the Cincinnati Southern road at 11:15 this morning. The party, with the governor included Davis S. Ferris, secretary of the Louislana state central Republican committee; Attorney General Richards, of Ohio; Dr. A. B. Richardson, of Columbus, Ohio; James M. Glenn, president of the Cincinnati chamber of commerce; Joseph P. Smith, state librarian of Ohio, and representatives of the two press associations.

Only one stop is scheduled in the trip and this is Lexington, where Governor McKinley will make a five-minute speech from the rear of the car, but it is probable that in response to urgent de mands a brief stop will be made at other points between Lexington and New Orleans. AS TO SOCKLESS JERRY.

Kansas Republicans are Making Desperare Effort to Defeat Him.

Special to the Scranton Tribune, Topeka, Kan., Oct. 19.-With their state ticket certain of election, Kansas Republicans are massing their strength on the congressional and state legislative tickets. They are making a desperate effort to defeat Jerry Simpson. Governor McKinley was taken to Hutchinson, 250 miles, in Simpson's district, and he had a wonderful recep-tion. Farmers traveled by wagon and on horseback ninety miles to see him. His visit greatly enthused the Republicans, but Simpson is going over his district, sick though, he is, and is being received by immense audiences. Popu-

lists figure his majority at 1,000.

In the Second, Fourth and Third the Republicans feel confident of success. The Second and Fourth will give the Republicans from 3,000 to 5,000 each, but the Third will be close. In the Fifth and Sixth neither party gives any estimates of the probable majorities.

Both Populists and Republicans claim the legislature, and are massing their forces in the forty close districts.

many has heretofore rolled up its large majorities by almost open defiance of the ballot laws. Yet these sections are being closely watched, and any attempt

at colonization will be speedily detected. The increase in registration is in the reputable residence sections of the city. It augurs bad, not only for the Tammany ring, but for the machine element back of David B. Hill. Many warrants have already been secured for men who registered illegally on the first day, a week ago, and Superintendent Byrnes says that the police force is making every effort to prevent any illegal voting. In this respect it is admitted the police are more active than they have been for years.

PAY **ENOUGH**

Some people are too anxious to save when buying a watch thinking that a cheap watch will do as well as a good ome, and that all the difference in watches is the price. May be that it required a moral effort on your part to pay us \$10 for a plain looking but honest timekeeper, when somebody else generally offers you a gold watch for \$2.50 and—just for goodness sake—throws in a gold chain and charm. Of course it is all a "tame schwindle," as the Jew said when he went up in the balloon and couldn't find the silver lining of the cloud. It happens every now and then that a person sends off for a gold watch, gets it, and then loses faith in watches and humanity for ever and ever. We think it would pay you to call on us and see if we have what you want, and if we can't suit you at all out of a large stock of watches, why—it is time enough then to send out of town for a \$2.53 gold watch.
